

BLUEMONT CIVIC ASSOCIATION
Task Force on Arterial Road Sidewalks and Pedestrian Safety
CHARTER

Our goal is to identify and investigate options to improve Bluemont's arterial roads in a way that would:

- make them safer and more accessible for pedestrians;
- help achieve the BCA goal of ensuring that arterial sidewalks meet Arlington and ADA design guidelines; and,
- allow for the safe, orderly flow of bicyclists, motor vehicles, pedestrians, and transit.

Operating Guidelines

- Our task force is open to all BCA members.
- We will investigate any and all plausible options.
- We will consider each others' views, and seek the views and advice of interested community members and people and organizations with expertise.
- We will report back periodically to the BCA general membership, with our first report coming no later than September 2012.

Meetings

Our initial plan is to meet at 8:00 on the third Saturday of the month at Two Chefs Pizza (5901 Wilson Boulevard) beginning January 21.

(Approved by vote of the Task Force at its inaugural meeting on January 21, 2012.)
